

# NATURE LOO CLASSIC™ 650

The Classic 650 is Australia's most cost effective split-system composting toilet. Its price and unapproved status make it the perfect toilet for a weekender house/cabin. The low profile of the compost chamber allows installation in even the smallest of gaps beneath the bathroom floor.

## CLASSIC 650-2 PACKAGE INCLUDES:

- Fibreglass clean white hard wearing pedestal and matching seat.
- 2 x composting chambers (55 cm H x 46 cm W).
- Waste connecting chute (up to 70 cm in length as standard but additional lengths can be supplied).
- Ventilation system including a 1 x 5 watt 12 volt fan and transformer.
- Easy to follow DIY installation and maintenance manual.

**Price:** \$1,795 ex-Brisbane factory (incl. GST)

**Capacity:** 1 person on a permanent basis  
2 people in a part-time/ weekend accom..

## CLASSIC 650-3 PACKAGE INCLUDES:

Includes all components of the Classic 650-2 but has three chambers. In cold climates or for greater capacity we recommend the 650-3 package to allow longer periods for the chambers to compost. However, it is possible to start with 2 and add additional chambers later. A Classic 650-4 package is also available.

**Price:** \$2,070 ex-Brisbane factory (incl. GST)

**Capacity:** 1 adult and 1 child on a permanent basis  
3-4 people in a part-time/ weekend accom.

All **Nature Loo Classics** come complete with everything required for installation except, for reasons of freight cost, the external vent pipe and absorption trench materials (for the excess liquid drain) which should be bought directly from your local hardware store for around \$150.

## CLASSIC 650 OPTIONS:

- Request a white seat
- Upgrade to a Palisade or a Pasadero pedestal
- Add a NL-greywater system and receive an overall \$200 discount

*It's only Natural.*
