

Classic 850 Model

We keep our design simple so that prices and ongoing maintenance costs stay low.

The Nature Loo solution is free of odours, chemicals, pollution, pumps, high maintenance and electrical costs. It also saves the typical family some 35,000 litres of water per year.

Pedestal & seat selection:

Please choose the pedestal & seat option to suit your Classic 850 system.

Pandora + Premium Timber seat

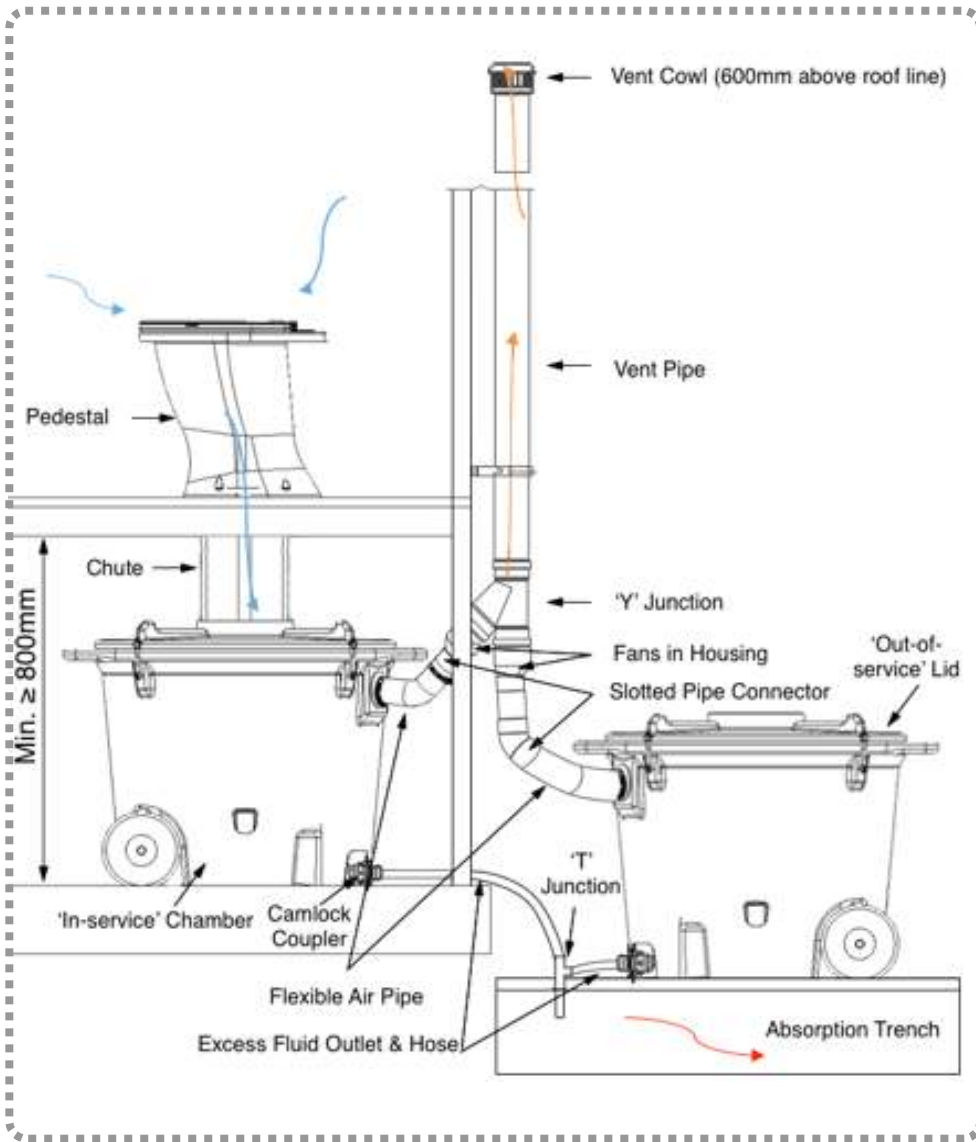

Palisade + White Toilet seat

| Pedestal | Options | Description |
|--------------------|--|--|
| Pandora |   Timber seat White seat | A solid fibreglass pedestal with a traditional hourglass design. |
| Palisade |  Standard Palisade | A solid fibreglass pedestal with a modern design - elegant curves and straight back. |
| Pasadero UD |  Standard Pasadero | Top of the line urine diverting pedestals with an identical design to the Palisade. |
| Polymarble |    White Seat Timber Seat Timber Seat | It has a polished interior and exterior giving a porcelain like finish. |

How It works:

See Through Side Profile of Classic 850

All **Nature Loo Classics** come complete with everything required for installation except, the absorption trench materials (for the excess liquid drain), a drain kit can be purchased from us or can be bought directly from your local hardware store.

Using solar power?

We offer 40W solar power systems for 12 volt fans.

- 1 x 40W Panel w/35Ah Battery
- 1 x Regulator w/ Cables
(Soldered.In Panel Box)

Note: We can supply a 24 volt 2 watt fan, if required for your own system.

Unique Features:

Compost Mixer

For standard Classic 850 packages (850-2/3/4), each chamber will come with a compost mixer to accelerate the composting process.

Heater Pad - For Colder Climates

Optional Extra

Heater Pad

To assist the composting process, a heater pad can be purchased for each chamber with any Classic 850 package, so they can be installed by Ecoflo (cannot be retrofitted).

Transformer for Heater Pad

Optional Extra

Special offer if purchased with any Classic 850 package (only one required).

The pad runs on 12 Volt Power.

*If using solar power, the heater draws 100 watts & your system will need to suit.
